

FOR IMMEDIATE RELEASE

BDA Releases Special *Bermuda:Re+ILS* Edition Showcasing Bermuda's Class of 2020

Hamilton, Bermuda, April 7, 2021 — The Bermuda Business Development Agency (BDA) has partnered with Newton Media to create a special edition of *Bermuda:Re+ILS* to commemorate Bermuda's Class of 2020 with the (re)insurance start-ups and new capital report.

The special report covers profiles of 13 notable companies that include Q&As with senior executives from the Class of 2020 start-ups and the established companies that successfully raised substantial capital. The report provides a snapshot into the thinking and strategy behind the new companies, and industry-leading viewpoints on opportunities within the market.

“Bermuda has continued to welcome new companies, capital, and investors throughout 2020. This is hugely significant given the context and the impact COVID-19 had on business decisions,” said Roland Andy Burrows, CEO of the Bermuda Business Development Agency. “As this report highlights, recent market conditions created compelling opportunities and Bermuda has once again been the jurisdiction of choice for new entrants and a surge of capital to established players. Bermuda continues to be at the forefront of providing innovative solutions to solve clients' needs and, with the Class of 2020 set to extend into 2021, we remain bullish about Bermuda's future prospects.”

AGENCY BERMUDA**

“The (re)insurance market will be key to addressing the unfolding world of uncertainties brought on by the existential threats of the day, including future pandemics, increased frequency and severity of natural disasters, growing cyber risk from the technological necessities of the pandemic, and signs of social inflation as societies struggle with the issues of equity and economic disparities,” said John Huff, President and CEO of the Association of Bermuda Insurers and Reinsurers. “Bermuda has led the (re)insurance industry in developing a scientific approach to catastrophe underwriting, innovating to better serve customers and establishing highly regarded enterprise risk-management programmes. Ensuring insurance products remain affordable and accessible for consumers in emerging and developed markets solidifies Bermuda’s position as the World’s Risk Capital.”
